Collar capsules for dogs and cats

Additional tip to make the capsule absolutely secure

It is recommended that you should give your capsule extra protection by putting some glue or nail varnish on the screw, so that it doesn't come loose accidentally.

ADDRESS Marshaw TELEPHONE, OTAL			
Please write your contact details on the little form inside the capsule.	Roll up the address form and put it inside the capsule.	Put a little glue or nail varnish on the surface of the screw. Leave it to dry for about 60 seconds, and then screw on the bottom part of the capsule.	The address capsule is now securely sealed and can be attached to your pet's collar. You will be able to unscrew the capsule by hand, if you need to in an emergency.
